OMI Local Contact

OMI local coordinators are the first contact point for physicians interested in the OMI medical programs. They offer valuable support for applicants and are happy to help with any other queries regarding the AAF/OMI programs.

If your country does not currently have a coordinator or you are interested in the promotion and coordination of the AAF/OMI programs please send an email to OMI Network Coordinator.

If you have questions regarding seminar participation or travel kindly send an email to smsi@openmedicalinstitute.org.

If you have questions regarding observership kindly send an email to observership@openmedicalinstitute.org.
