Vienna School of Medicine Gala 2019

The 2019 Vienna School of Medicine Gala took place on November 11 at Van Swieten Saal of the Medical University of Vienna. This year’s program was dedicated to Obstetrics, Gynecological Oncology and Reproductive Medicine featuring short presentations by Peter Husslein, Herbert Kiss, Christian Singer and Michael Feichtinger, who are leading experts in their field. A record number of 285 guests joined us to celebrate their achievements and to honour past and current scientific contributions of Viennese physicians. The money raised will support OMI Fellowships for physicians from countries in transition and OMI Satellite Symposia with faculty and mentors from Vienna.

Professor Wolfgang Aulitzky and Rector Markus Müller presented the OMI Outstanding Faculty Member Award to Prof. Wolfgang Graninger and Prof. Franz Kainberger.

Prof. Peter Husslein received the OMI Honorary Award for his exceptional contributions to the Open Medical Institute.
